

PROTANDIM®

NRF1 SYNERGIZER™

STOP AGING IN ITS TRACKS

Protandim® NRF1 Synergizer is a breakthrough in nutrigenomics and the fight against aging that uses ingredients to harness the energy of youth—mitochondria.

A SCIENTIFIC BREAKTHROUGH FOR THE AGES

With age comes wisdom and maturity. That's the upside. But you also get all the wrinkles, more aches, and overall lack of energy. Getting old isn't easy. We get it. We also understand why. Thanks to breakthrough in nutrigenomics, we're able to fight the signs of aging at the cellular level—right where aging occurs. It's called Protandim NRF1 Synergizer, and it's revolutionizing health and wellness.

THE MIGHTY MITOCHONDRIA

Unfortunately, we still haven't discovered the fountain of youth. But we finally understand why we age. Every day, your cells are damaged by free radicals from natural processes like breathing and from pollution in your environment and diet.

This leads to oxidative stress and a breakdown of your health at a cellular level—one of the main contributing factors to the aging process. One of the most crucial keys to slowing the harmful effects of aging and restoring a youthful feeling to

your body is living in your cells. They're called mitochondria.

Mitochondria produce up to 95% of the energy your body uses. But those muscular, microscopic powerhouses break down as you age. It's a natural part of oxidative stress. But fewer mitochondria don't just mean less energy. Mitochondria also produce ATP (Adenosine Triphosphate)—the source of cellular energy that pumps our heart, supports muscle growth and maintains healthy brain function.

A SOLUTION TO AGING UNLIKE ANY OTHER

The idea is simple: produce new, more powerful mitochondria, and you'll feel younger and more energetic from the inside out. And that's where Protandim NRF1 Synergizer steps in. It's a new breakthrough in nutrigenomics that wakes up your body's ability to boost mitochondria production, protect the ones you have and restore youth to your body at the cellular level. Protandim NRF1 Synergizer, combined with the Protandim Nrf2 Synergizer, gives us a new way to improve cellular health and support healthy mitochondrial function as we age.

LIFEVANTAGE NRF1 SYNERGIZER:

- Increase cellular energy (ATP)
- Improve performance through energy production
- Enhance cellular health—cells function at their peak performance
- Improve sleep quality and promotes cellular repair
- Boost mitochondria production and their ability to network
- Slows cellular aging by supporting chromosome integrity

Nutrition label	
Servings per package: 30	
Serving size: 2 capsules: (Each capsule 389 mg)	
Per Serving	
Energy	0 kcal
Protein	0 g
Total Fat:	0 g
- Saturated Fat	0 g
- Trans fats	0 g
Carbohydrates	0 g
- Sugars	0 g
Sodium	0 mg

Proprietary Blend of Rhodiola rosea Root Extract (active ingredient), CoQ10 (active ingredient), Grape (Stem and Fruit) Extract (active ingredient), Alpha Lipoic Acid (active ingredient), Quercetin dihydrate (Sophora japonica (active ingredient), Vegetable cellulose (non-GMO plant cellulose); Non-GMO White Rice Flour (firming agent) Microcrystalline Cellulose (stabilizer), Sucrose of fatty esters (emulsifier), Maltodextrin (anti-caking agent).

USAGE AND DOSAGE RECOMMENDATIONS:

For adults, take two capsules per day and consume the capsules with food.
